6. STATEMENT OF PURPOSE (MAX. 300 WORDS)

First, a word about me.

"Balance is not something you find, it's something you create." is a principle I live by. Hence, I maintain a balance between studying, fitness, socializing, sports, movies, and religious duties, always trying to enjoy every aspect of life without sacrificing my responsibilities.

This balanced lifestyle brings out the best in me, fueling my passion for technology, especially artificial intelligence and the Internet of Things. I have always been mesmerized by the numerous applications of AI and automation. I just cannot stop thinking how AI will transform the world in the future, being applied in every business, app, home, street and what not.

Purpose of visiting Turkey

The first aim of coming to Kayseri, Turkey is to see the Turkish culture. I visited Turkey as a tourist in 2018 with my family as a kid and I remember seeing the amazing architecture and friendly people I saw there. I spent around fifteen days then, and now I am coming for one whole semester and want to be fully mesmerized among the rich cultured people of Turkey.

Secondly, I saw that Abdullah gul university is one of the top rising universities in Europe. I wanted to spend a semester here so I can keep my studies and future ambitions together while also exploring Turkish heritage. I saw the beautiful campus in videos as well and that just made me want to spend a semester in Turkey.

Lastly, I want to network and know the opinions of people outside my country. I believe travelling is a great teacher. When you are limited to one place, you are exposed to only one mindset of people. I am certain that meeting students, professor or generally people in Turkey will broaden my thinking and overall help me to see things differently.
